National University
of computer and emerging sciences

LAB: Artificial Intelligence

Lab Instructor	Ms. Saba Aslam
Department	Computer Science

Project Task 01+ 02
Machine Learning
(K means + K medoids)

Instructions

1. You also have to submit .py file. (Compulsory). Write your name in the file.

2. Paste screenshot of the code and output on word file and submit as well.

3. Comments in the code explaining chunks of the code is important. (Compulsory).

4. Conciseness of code is very important.

5. Plagiarism is strictly prohibited, 0 mark would be given to students who cheat.

6. Don't upload zip file. Separately upload all the files on class room

Task:

- This is the part of the project.
- Files are uploaded.
  Update .py file to implement K means Clustering and K medoids from scratch.
